The information in this document describes our provision for students with a Special Educational Need or Disability (SEND) and reflects Birmingham’s Local Offer which can be found at www.birmingham.gov.uk/localoffer.

At Ninestiles, we strive to ensure that all students achieve their potential personally, socially, emotionally and academically in all areas of the curriculum regardless of their gender, ethnicity, social background, religion, sexual identity, physical ability or educational needs. This report is intended to give you information regarding the ways in which we ensure that we support all of our students, including those with special educational needs and disabilities, in order that they can realise their full potential. It may not list every skill, resource and technique we employ in order to achieve this as our provisions are continually developed and evaluated to meet the diverse and changing requirements of our students.
Primary school information is a key source for us in identifying new students with SEND. At the start of year 7 all students have their reading and spelling assessed together with subject baseline testing so that we can establish who might require targeted wave 2 and specialist wave 3 interventions (see table below). In addition, as the term progresses and at regular intervals throughout key stages 3 and 4, teaching and support staff are asked to raise through Achievement Leaders, subject leads, SENDCo and the school’s Referral Panel any student who is not making expected progress or whom they have particular concerns about. At this point a conversation will take place with parents/carers to discuss options and strategies available to ensure the most appropriate support mechanisms are agreed and implemented.

Staff are required to upheld high expectations when both designing and planning from a coherent and ambitious curriculum. All students remain at the heart of our school improvement as we aim to; spark curiosity and excitement within them about the world, themselves and each other, help them to make connections between the composite parts of knowledge they are taught across different subjects, and provoke ambition through appropriate support and challenge in preparation for future education, work and life.

Throughout the year, teachers and teaching assistants are kept abreast of new initiatives through continual professional development delivered by the school’s SENDCo, specialist guest speakers and through our VLE - Arbour. At Ninestiles school all staff are required to complete annual safeguarding and health and safety online training along with policy reading. Specific SEND training is also regularly scheduled to ensure staff knowledge, skill-set and approaches are enhanced and where appropriate externally accredited. We work closely with a range of outside agencies who both support our professional learning development and help us to quality assure our practice and procedures.

In school we assess whether a young person has a special educational need or disability in different ways. Some of these may include:

- Observations
- Teacher feedback
- School based test results
- Information from parents / carers
- Information from the young person
- Specialist assessments carried out by outside agencies working in collaboration with the school (with parent/carer consent)
- Transition information
- A specialist external report from an education, health or social care professional

A person centred approach is then used in consultation with parents and outside agency specialists in the form of a graduated cycle to underpin the provision and interventions required;
Wave 1 (universal support)
This includes high quality inclusive teaching, which takes into account the learning needs of all students in the classroom. It requires teachers to provide differentiated work/resources and create an inclusive learning environment.

Wave 2 (universal plus / targeted intervention – school support)
This includes specific, additional and time-limited interventions that target identified gaps or a delay in a student’s development. The support is designed to accelerate a student’s progress from their starting point. Often the intervention is delivered to support a small group of students with similar learning, language or personal development needs. Students in receipt of a wave 2 intervention are identified as having “SEN support”.

Wave 3 (additional needs / specialist intervention - statement / Education Health Care Plan)
This includes specialist provision for a minority of students where it is necessary to provide highly tailored interventions to support their academic progress and/or personal development. Students receiving a wave 3 intervention and / or access to specialist external support (on a 1:1 / small group basis) are identified as having high focused “SEN support”. The school may work with outside agencies, parent/carers and the student to create a Support Plan outlining specific targets to clearly evidence desired outcomes and provision. The plan is usually reviewed on at least a termly basis with progress and next steps clearly noted.

Students may (if not already in receipt of) need to undergo a holistic statutory assessment of their needs which may result in an Education Health Care Plan (EHCP) being applied for, agreed and issued by the Local Authority. Evidence in support of an EHCP needs to be gathered and clearly documented through the graduated approach; assess, plan, do and review cycle and noted within a young person’s Support Plan. Short and long term outcomes are then discussed at a Team Around the Child meeting with all views gathered and recorded. This process usually takes at least two academic terms to fully evidence unless there are extenuating / special circumstances.

For further information regarding this process, follow the link; https://www.birmingham.gov.uk/info/50142/assessment_of_need
If the LA’s Special Needs Assessment Team agree to progress with the request a pathway for new assessments is followed: https://www.birmingham.gov.uk/downloads/file/8190/ehc_pathway_revised_130815

**Education Health Care Plan**

A small minority of students may receive support and provision via an Education Health Care Plan. The holistic and person centred plan clearly details the areas of SEND a student has, the support they require and the short/long term desired outcomes being worked towards. The plan is reviewed at least once a year and at this point views are gained from the young person, their parents/carers, teachers and external professionals involved in their care and education. The impact of provision is also reviewed along with; academic progress, attendance, behaviour, health and social care requirements and any short term targets partially / fully met.

For the majority of students with an EHCP progress will have been made and their needs will continue to be appropriately met. For some students, their needs may require a more specialist approach requiring additional adult support, personalised resources, higher needs funding or for an alternative placement to be explored (in agreement with the wishes of the young person, their parents/carers and other professionals involved).

The students who are allocated a placement in our Cognition & Learning Resource Base (RB) all have an Education Health Care Plan in accordance to the Special Educational Needs Code of Practice January 2015. We are currently established and funded to accommodate 9 students within the Resource Base for each year group (totalling 45 places throughout years 7-11). The students are allocated to the Ninestiles Cognition and Learning Resource Base via the Local Authority Special Educational Needs Assessment and Review Team (SENAR) rather than through the school’s usual admissions procedures. We are happy to meet with prospective parents / carers to discuss their child’s SEND and support requirements and provide them with an overview of school and its provision throughout the transition planning period of years 5 and 6. Visits for prospective children are arranged in November and June at our SEND information events for more information on these, Mrs Butler our Inclusion Administrator can be contacted on 0121 628 1311. The team are also available on our open evening and morning events.

Although all of the students allocated a place in the RB will have cognition and learning difficulties identified within their Education Health Care Plan some students may also experience varying additional needs in the areas of speech, language and communication, autism, specific learning difficulty i.e. dyslexia, mild sensory or physical impairments and social and emotional development.

The students are integrated into mainstream lessons for approximately 70% of their timetable and are withdrawn from modern foreign languages and humanities to receive specialist and tailored support (as outlined in their EHC plan) within the Resource Base for approx. 30% of their timetable. During these small group lessons programmes of study focus on the development of
What are the interventions / provisions available to support students with SEND?

**Cognition & Learning**
- Students’ literacy, numeracy, expressive language, social, well-being, study and independent living skills.

The list below is an example of the various wave 2 and 3 provisions available to our students as part of the graduated approach:

<table>

**Telephone:** 0121 303 4955

**Email:** travelassist@birmingham.gov.uk

In school enquiries are to be directed to Mrs Butler our Inclusion Administrator.

All students will receive progress reports throughout the school year having undergone assessments detailing their attainment, effort and achievements from across their subject areas. Should teachers, Achievement Leaders or parents have any interim concerns, home to school contact is essential to swiftly intervene and identify appropriate support / ways forward.

Parent/carers also have the opportunity to contribute to their child’s One Page Profile. Formally this is done in line with consultation evenings and review meetings however, should information need updating this can be done at any given time in order to keep teachers informed of how best they can support students. A copy is also posted home prior to parent’s evenings for consideration and annotated amendments.

Our Inclusion Team consists of: Miss Aimee Clay - Special Educational Needs Co-ordinator, Head of our Cognition and Learning Resource Base – Ms Kate Wixon, Mrs Sharon Davis – teacher of numeracy and life skills and a team of teaching assistants, learning mentors, a full time school based counsellor, timetabled subject specialist teachers and our Inclusion Administrator – Mrs Helen Butler.

Where necessary assessment, advice and guidance is also sought from our external agencies;

- Communication & Autism Team
- Pupil & School Support Services
- Speech and Language Therapist
How are students with special educational needs and disabilities supported with their phases of transition?

- Educational Psychologist
- Specialist Sensory Support Services – HI/VI
- Brays Outreach Service
- Forward Thinking Birmingham
- Educational Welfare Officer

We have a Trust SENDCO Ms Christa Vines who works closely with us and our family of schools within the Summit Learning Trust. Regular opportunities are facilitated for our inclusion staff to collaborate with colleagues from across the Trust to share and develop best practice.

During the summer term, prior to admission in year 7, our inclusion team work collaboratively with the designated Assistant Principal to visit our feeder primary schools so that information can be shared, parents can be met with and additional visits can be arranged. For children that have an EHCP or require specific transition support, six additional sessions are scheduled throughout the summer term offering parents and their children the opportunity to familiarise themselves with Ninestiles, key staff and our provisions is available.

The Preparing for Adulthood outcomes (employment, independent living, community inclusion and health) are firmly embedded within our inclusion curriculum offer at key stage 3 & 4. In preparation for post 16, specific planning begins with considering a student’s key stage 4 option pathway and their personal interests. Other support includes; our annual Futures Evening, information and guidance meetings, 1:1 careers advice, work experience and a visit to the annual Skills Show at the NEC. Our school careers advisor also attends year 9 and 11 EHCP review meetings and parent / carer consultation evenings. Should a student require individual support with their post 16 application forms and college interviews our Inclusion team can also assist with this process. We also liaise with the Supported Learning Teams / key staff at the colleges / sixth forms passing on relevant information to ensure a successful and confident transition is planned for.

At Ninestiles school we operate a working in partnership approach which means parents/carers can contact the school whenever they have a concern and time will be made for them. We want all parents/ carers to be involved in the education of their child as young people learn best if there is a strong partnership between home and school with regular opportunities for honest and open communication. Our SENDCO, Head of Resource Base or a representative from the Inclusion team is available at all parent consultation events and can be contacted by telephone / email should an individual query or meeting be required.

Student voice is also recognised and strongly valued. We use person centred tools and approaches to ensure that our students are actively involved in their review meetings and decision making regarding their support and provision. We have a school culture that promotes student leadership with all students having the opportunity to raise their views via tutor group programmes and the school council. Students are actively involved during staff recruitment processes.
and are able to confidently articulate themselves when talking to visitors about their school and experiences.

As a school we also collect student and parent voice at timely intervals throughout the year via questionnaires to enhance our systems, practices and events.

Both our school provision and external support for students with SEND are regularly monitored. This is embedded within; the Trust and whole school quality assurance processes, performance management cycles, and is an aspect integral within our regular teaching and learning review systems. Attendance is tracked weekly as is behaviour. Progress data is collected and analysed on a termly basis and reported on to our Local Governing Body. All findings are then actioned and closely monitored by the Trust SENDCO, school based SENDCO and Senior Leadership Team to ensure desired outcomes are achieved.

In the first instance should a parent / carer have a query they would like to raise regarding their child’s special educational need or disability we ask that they make contact via email or telephone to our SENDCO / Head of Resource Base. A face to face meeting can also be arranged via email, telephone or through our Inclusion Administrator at a mutually convenient time.

We take parent / carer concerns seriously and will act upon these on an individual basis.

In the first instance we would always ask that a parent / carer raises their concerns with their child’s form teacher / subject teacher, achievement leader, pastoral manager. Should they have any specific questions / queries thereafter regarding their child’s support or provision contact should be made via the school’s main reception for the attention of our SENDCO Miss Clay.
Who are SENDIASS and how can they support and advise parents/carers and young people?

If a parent / carer is still unhappy about the resolution of their concern or if it is of a more serious nature, then this should be raised with the Vice Principal Mrs Jeanetta Liburd.

More guidance regarding the school’s complaints procedure can be found on the school’s website or can be requested from our school reception.

Special Educational Needs Disability Information Advice Support Service aims to:

- provide information, advice and support to children and young people up to the age of 25 with SEND
- provide information, advice and support to the parents/carers of children and young people up to the age of 25 with SEND
- provide impartial advice about matters relating to SEND, including issues relating to health and social care
- offer support to parents/carers and children and young people with SEND in participating in decisions made about the child/young person’s education, health and social care.
